

## Carpet Reclamation Program

**Texas Carpet Recycling** is a landfill diversion alternative for commercial carpets within the continental US. TCR offers end-users, contractors, and mills an efficient alternative to expensive, unsustainable landfills. Our job is to find a home for your old carpet, no matter the fiber or backing type. Pricing varies based on the services needed, so give us a call at **817-552-1011** to discuss your reclamation needs. It is important to note that the prices are based on TCR processing ALL carpet types. We are one of the few reclamation center can make that claim. We guarantee that all carpet we collect will **NOT** go to landfill.

## Services

### Full service removal/reclamation

Too busy to worry about removal/reclamation? Let TCR provide full service removal and landfill diversion services so you can concentrate on the installation of your project. Service includes carpet removal, delivery to the collection center, sorting, baling, and recycling or diverting from land fill.

**Drop off Service – FOB Grapevine:** Call us at **817-552-1011** to discuss the logistics for your customer-arranged freight and set an appointment to drop off your carpet at our warehouse.

**Trailer Service – Our most popular service:** Instead of renting dumpsters and throwing your carpet into landfill, call TCR to provide you with a 48' trailer on site. The trailer will be dropped at the jobsite for loading. This trailer will hold approximately 5,000 yards of carpet, which would fill about three, 30-yard dumpsters. Additional trailers can be dropped if the project is larger than 5,000 yards. For smaller jobs, we may be able to provide 16', 20' or 40' containers depending on the jobsite location.

### Pick up service

We provide pick up services for your smaller carpet jobs within the Dallas/Fort Worth market. Carpet must be palletized, shrink-wrapped and loaded by client. There will be an hourly labor charge added to your invoice if TCR staff must load the carpet.

**Specification writing:** Let us help you write a CSI Format specification that includes alternatives to disposal.

Payment arrangements must be agreed upon prior to service appointment. Upon payment of the invoice, we will send you an Environmental Stewardship Certificate with the weight and final location of the reclaimed carpet.

Texas Carpet Recycling plants one tree for every ton of carpet processed through our partnership with American Forests. Every 90 days we plant an average of 500 trees!

Go to our website today and fill out a quote request at [www.texascarpetre recycling.com](http://www.texascarpetre recycling.com). Please fax or e-mail your request to TCR at 817-601-2281 or [info@texascarpetre recycling.com](mailto:info@texascarpetre recycling.com)

## Receiving Requirements

- Dry carpet or pad only, carpet base will be accepted, any wet carpet material will not be accepted or removed from jobsite
- Rolled or palletized by single material type (broadloom, carpet tile, pad)
- Maximum 4 feet for width of carpet rolls. Carpet should be rolled carpet side out. Stack in trucks horizontally across the width of the truck.
- Carpet tile must be palletized neatly in 4' high stacks, strapped, and/or shrink-wrapped for stabilization during transport
- Carpet should not be stacked more than 1 foot from the vertical height of the inside of the trailer.
- Loads may not weigh more than 42,000 lbs.
- No tack strips, nails, staples, or knife blades will be accepted or removed from a jobsite
- Minimal loose dirt
- No wet glue, debris, asbestos, drywall, refuse, rocks or caked mud
- Absolutely no co-mingled refuse accepted, no vinyl base accepted or removed from jobsite
- Additional fees will be assessed for scraping glue from the floors with demolition service and any furniture moving required in order to remove carpet
- Turnkey service does not include removal of wall base unless it is carpet and indicated in reclamation estimate
- Turnkey service will only be performed in areas where power and air circulation are provided by client; additional charges will be assessed if TCR must supply either
- Appointment and payment arrangements required for service, credit cards required if no credit line is open
- If shipment does not follow these guidelines, client will be assessed a warehouse labor fee of \$500 per truck for improper loading or shipment may be refused.
